

SUBSTANCE INFORMATION**Substance/material/trade name:** Dulux Trade Satinwood Paint**What is the substance used for?** Protection and decoration of wood surfaces.**What are the hazardous ingredients/chemicals in the substance?**

Naphtha (petroleum), hydrotreated heavy, naphtha (petroleum), hydrodesulfurized heavy, cobalt carboxylate, ethyl methyl ketoxime

Substance is:

- | | | | |
|--|---|--|--------------------------------------|
| <input type="checkbox"/> Extremely flammable | <input checked="" type="checkbox"/> Oxidising | <input checked="" type="checkbox"/> Very toxic | <input type="checkbox"/> Sensitising |
| <input type="checkbox"/> Highly flammable | <input type="checkbox"/> Harmful | <input type="checkbox"/> Corrosive | <input type="checkbox"/> Other: |
| <input type="checkbox"/> Flammable | <input type="checkbox"/> Toxic | <input type="checkbox"/> Irritant | |

Substance is hazardous to health when:

- | | | |
|--|---|---------------------------------|
| <input type="checkbox"/> In contact with skin | <input checked="" type="checkbox"/> Breathed in | <input type="checkbox"/> Other: |
| <input checked="" type="checkbox"/> In contact with eyes | <input checked="" type="checkbox"/> Swallowed | |

USE OF SUBSTANCE**How should the substance be used?** Applied with a brush or roller.**Who is exposed to the substance?** Those using it.**Does the substance present additional risks to certain groups or individuals?** No.**CONTROL MEASURES****What controls are required for this substance, other than Personal Protective Equipment (PPE)?****Is any Personal Protective Equipment (PPE) required when using the substance?**

- Eye protection
Type: Protection against liquid splashes.

- Gloves
Type: Suitable gloved.

- Overalls/clothing
Type:

- Mask/respirator
Type: Dusk mask.

- Other
Type:

How should the substance be stored? Keep the container tightly closed and stored in a cool, dry, well ventilated place away from sources of heat, ignition and direct sunlight. Not to be stored by hanging on hooks or extremes of temperatures.**Have persons using this substance been provided with information or training on its use?**
Yes, and risk assessment viewed.

OTHER PRECAUTIONS AND EMERGENCY PROCEDURES

How should an accidental release/spillage of this substance be dealt with?

What actions should be taken if the substance is:

Swallowed: Seek medical attention and show container or label. Do not induce vomiting.

In contact with eyes: Rinse immediately with plenty of water and seek medical advice.

In contact with skin: Wash immediately with plenty of soap and water or a proprietary skin cleaner. No solvents or thinners. Seek medical advice if symptoms persist.

Inhaled: Move to fresh air keep patient warm and at rest. If breathing is irregular or stopped administer artificial respiration. Give nothing by mouth. Seek medical advice.

What actions should be taken in the event of fires involving this substance? CO2 powders alcohol resistant foam should be used. Do not use waterjet.

Is there any other substance that this substance must not come into contact with? Keep away from oxidising agents, strongly alkaline and strongly acidic materials.

How should the substance be disposed of (or not disposed of)? Do not empty into drains or water courses. Wastes, including emptied containers, should be disposed of in accordance with national regulations.

Do staff using the substance require any health surveillance?

Yes No

ASSESSMENT OF RISK

Are all the controls detailed above currently in place?

Yes No

If these controls are not in place, or additional controls are required, state action to be taken. Please note - COSHH substances must NOT be used if adequate control measures are not in place.

Are hazards to health adequately controlled with all control measures in place?

Yes No

Additional notes
